

# B. Reading comprehension - Riddle

In this riddle, you must assort the information given in order to find out who goes fishing. Analyze the information and answer the question:  
Who goes fishing?

## Facts

There are five houses of five different colours: blue, green, red, white, yellow  
In each house lives a person of a different nationality: American, Australian, British, Canadian, Irish  
Each of the five house-owners has a certain job: carpenter, lawyer, pilot, plumber, waiter  
Each of the five house-owners has a certain hobby: chess, fishing, football, sailing, tennis  
Each of the five house-owners has a certain pet: cat, dog, goldfish, hamster, horse  
None of them have the same pet, job or hobby.

## Other facts

The Irishman lives in the green house.  
The red house is on the immediate left of the white house.  
The person in the red house is a pilot.  
The American plays chess.  
The Canadian is a waiter.  
The person with the horse lives next to the one who plays tennis.  
The person who goes sailing lives next to the one with the cat.  
The person with the goldfish plays football.  
The person in the blue house has a cat.  
The Briton has a hamster.  
The Australian lives next to the yellow house.  
The person with the horse has a neighbour who is a plumber.  
The person in the center house is a lawyer.  
The Australian lives in the first house.  
The dog owner is a carpenter.  
Question: Who goes fishing?

Nationality	Australian	Canadian	Irish	British	American
House					
Job					
Hobby					
Pet					

Here is a table you can use to make it easier to answer the riddle. Good luck!
